Dear Ms. Young,

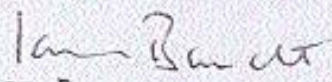

Thank you for sending the policy documents for my Legal & General annuity.

As someone with limited experience and some distrust of the internet I was a little apprehensive about using your company. My worries proved to be totally unfounded as the whole process was straightforward and painless.

The options presented to me were clearly set out and explained, and included one I would not have thought of which suited my circumstances and which I finally chose. Please pass on my thanks to Karen Batchelor who was my advisor.

Thank you again for your assistance.

Yours sincerely

Ian Barnett
